# FAIR INTEREST IS WORLDWIDE.

Inquiries About Louisiana Purchase Centennial Pour In From Many Sources.

#### OBSTACLES DAILY GROW LESS.

Finance Committee Preparing to Renew Work Very Soon, When Subscriptions Will Be Closed Rapidly.

Gratifying progress in World's Fair work In the last week was reported at headquarters yesterday, and offers of assistance were received from many sources. Members of the Finance Committee are impahope was expressed vesterday at headquarters that all obstacles in the way of a final the local subscription would be removed in the course of a few days. One obstacle has been posse duty required of a number of prominent World's Fair workers and chairman of collecting committees. Their release from active duty on the posse comitatus has removed this and has brought the active resumption of work by the Finance Committee a step nearer.

The most interesting feature of last week was the correspondence from points outside the city, and more especially from Paris. The announcement by cable of the action of Congress in regard to the appropriation for the Louisiana Purchase Centennial excited great interest in the French capital, and many communications have already arrived as a result. Some of these contain offers of services by experienced exposition men, and others have suggestions of importance and interest. There have also been some satisfactory comm cations from Buffalo and from New York. Several friends of the movement who are going abroad have offered to do all in their power to direct attention to the celebration

in foreign countries.

Doctor Jesse S. Myer, in a communication to Governor Francis, calls attention to the fact that the International Medical Congress will convene in Paris this August. As the congress meets every three years, its next assembly will be about the time of the holding of our World's Fair, and the doctor suggests the importance of securing this gathering for St. Louis. Three years this gathering for St. Louis. Three years ago the congress met at Washington, when there were 3.00 physicians in attendance, including representatives of almost every city in the world. In 1894 the congress met in Home, and in 1891 at Moscow.

Throughout the entire correspondence there has been a velu of confidence in the success of the enterprise, and notifications are becoming more numerous of willingness on the part of enterprising people everywhere to invest money in concessions and features. The number of visitors at headquarters during the week was scarcely as large as during the preceding week, but the offers of assistance of every kind, including increases of subscriptions, were general and exceedingly gratifying.

Seekner Company Pushing Work on Its Contract.

Supervisor of City Lighting O'Reilly re-ports that the Seckner Contracting Com-puny, to which was awarded the city con-tract for lighting the downtown section of the city with arc lights for ten years, begin-ning September 1, is going ahead promptly with the necessary preparatory work of ning September 1, is going ahead promptly with the necessary preparatory work of patting in conduits. "The Seckner people are now putting in conduits on Twentleth street." said Supervisor O'Reilly. "They have 40.000 feet of conduits to put in, I understand, before September 1, but if they continue the work regularly there is no reason why they should not be ready to begin their service by the appointed time."

Nothing has been heard from the Kern Incandescent Gas Light Company since the notification of the board's declaration of the breach of contract was forwarded to them. "It is doubtful if the company will respond to the notification through the usual channels," says President McMath, "but it is not improbable, judging from the remarks made by the company's representatives on the day the breach was declared, that we shall hear from them in another way. It would not be surprising if the trouble which the board half expects from the Kern people will come through some citizen of St. Lquis, However, we are not worrying about that part of the situation."

It was understood that Delegate Kelly, he of the franchise-repeal ordinance fame, would introduce in the House at the last meeting a resolution authorizing the appointment of a special committee to investigate the city's powers and privileges in the matter of operating street railways. A representative of the Franchise Repeal League, which originated the idea of the special House committee, was present at the meeting to make a report of the action of the House, but for some reason or other Mr. Kelly did not introduce the resolution. In this connection it is noteworthy that the Franchise Repeal League has ceased entiting the franchise-repeal ordinance "the Kelly bill." It is stated that the reason of this action by the league is due to a remark made by a prominent member of the House who originated the bill.

A letter was received at the City Register's office yesterday morning from Miss Elizabeth Ehenson, No. 1331 Wabash avenue, Chicago, Inquirieg of the whereabouts of one James Eads, a preacher, who, the writer states, once held a mission at Washington avenue and Ninth street in this city. The writer of the letter did not know what is the Reverend Mr. Eads's denomination or how long ago it was that he was engaged in mission work in this city.

# MISSISSIPPI BIVER WORK.

Captain Henry's Report on the Legislation.

REPUBLIC SPECIAL. Washington, June 23.-Captain Patrick Henry, special representative of the Mis-

sissippi River Improvement and Levee Association, has sent a report to President Charles Scott explaining the recent work in obtaining legislation. Owing, Captain Scott says, to the fact that appropriations for the Mississippi have customarily been authorized for terms of four years each, and the last term was about to expire, it was determined to risk all on the plan of amending the sundry civil bill in the Senate, with the hope that the appropriations would be agreed to in the conference. This made advisable the comparative secrecy with which the programme was carried out.

The complete success of the plans is attributed in a large measure to the ability and zeal of the Representatives and Senators from Mississippi River States. All were eager, but it fell to the lot of a few, owing to their committee assignments, to render services which should be especially remarked. Among these are Senators Berry of Arkanass, Cockrell and Vest of Missouri, and Representatives McRae and Catchings. sissippi River Improvement and Levee As-

#### SEYMOUR'S BAND TO PLAY FOR EXPOSITION.

LOCAL MUSICIANS GIVEN PREFERENCE.

Economy Not a Figure in the Deal Three Hundred Delegates Will Bo -New Soloists Will Be Enlisted.

The new Exposition management has contracted with Professor Charles P. Seymour for the St. Louis Exposition music the coming season. The famous First Regiment Band, of which Professor Seymour is the leader, was organized for the purpose of going to Chickamanga with the Missouri volunteers. It will be augmented this fall at the Exposition by celebrated sololsts whose names will be announced later.

A portion of the First Regiment Band won popularity under the leadership of Professor Seymour last year at the Tower Grove Park Sunday concerts. It is one of the best-known military bands in the country, and is fortunate in having a leader who is said to combine the skill of Sousa with the popularity of Gilmore. The engagement of this band to furnish the Exposition music appeals strongly to the local sentiment in favor of affording the op-portunity to local musicians to build one of the strongest band organizations in the country. The question of economy did not enter into the contract, and at least a dezen bids were received at

In awarding the contract to Seymour ar his musicians, the new Exposition management is confident that the patrons of the Exposition will receive many delightful mu-sical treats which will remind them of the successes here of Sousa and Gilmore. They assure the public that the performances will equal in every respect and excel in many anything that has been heard at the

Exposition in the past. Professor Seymour has long held a fore most position in the estimation of music lovers of this city. He made his bow to the St. Louis public in 1884, when he acte as assistant leader of the famous Arsenal Band, which opened the Exposition in its Band, which opened the Exposition in its first year and played through the entire season. Professor Seymour was first known to the St. Lonis public, however, as a soloist at the Olympic Theater, where he played for twelve years after his retirement from the United States Army, which he entered soon after his arrival in this country and in which his musical talent won him distinction and promotion.

At the outbreak of the war with Spain he resigned his position with the Broadway playhouse, and at the earnest request of Colonel Batdorf organized the new First Regiment Band, the old organization having refused to volunteer, and took them to Chickamauga.

# MISSOURI UNIVERSITY NOTES.

Co-operative Store Planned-Y. M C. A. Employment Bureau.

SPECIAL CORRESPONDENCE. Columbia, Mo., June 22.—Steps have cently been taken for the establishment of a co-operative store at the University of Missouri. It will be genuinely co-operative, and the students will receive all of the benefite. Such an organization will make the expense limit of all those in attendance at Missouri University another point lower. The idea of university co-operative stores is by no means new. Harvard, Yale, Michigan, Chicago, Wisconsin, California and other universities have had stores for years. The unanimous report is that they have been the means of great saving to the students. Free tuition in all departments, clubhouses which insure board at remark-chy low rates, and a co-operative store, by means of which school supplies can be had at almost as favorable rates as the wholesale dealers can furnish them, certainly will put the possibility of attendance at the university in reach of all.

For the last two years the Young Men's Christian Association of the University of Missouri has maintained an employment for students who have not the money to pay their expenses while attending the university. So successful has it been that it has never failed to find some work for every student who has applied.

Before the opening of the fall term a committee of the association's members will make a canvass of the town in order to get a list of the positions which are open to the students. Following is a partial list of the positions which has tudents do: Carpentering, painting, gardening, printing, typewriting, bookkeeping, janitoring, woodsawing, furniture moving, ciealing bicycles, repairing, ditching, harvesting, lawnmowing, general farm work of all sorts, and housework, i. e. chores. One of the boarding clubs gives seventeen men their board to do the diningroom work and cleaning for the club. Several hundred dollars are expended annually for student labor on the State farm and horticultural grounds. The general secretary of the association, William B. Pettus, will be in Columbia all summer. efits. Such an organization will make the expense limit of all those in attendance at
